MATERIAL DATA SHEET

10X E3 Ligase Reaction Buffer

Cat. # B-71

E3 Ligase Reaction Buffer is formulated to support the *in vitro* activity of E3 Ligase enzymes. This buffer is similar in composition to 10X Ubiquitin Conjugation Reaction Buffer (**B-70**), but contains a higher concentration of reductant for those enzymes that benefit from additional disulfide-reducing potential. Fully compatible with E1 and E2 enzyme activity, this buffer can be used to supplement the ubiquitin-protein conjugation kit (**K-960**), fraction II conjugation kits (**K-930**, **K-935**), and E3-ligase enzymes.

Note: Does *not* contain ATP or MgCl₂.

Product Information

Stock: 5 x 1 ml vials (5 ml total)

Use & Storage

Use: Dilute to 1X in final reaction.

Storage: Store at -20°C. Avoid multiple freeze/thaw cycles.

For Laboratory Research Use Only, Not For Use in Humans

Rev: 04/06/2014
